Exam 000-085: System x BladeCenter Technical Support V5

Question:1

A System x administrator is considering new storage subsystems. Which of the following is a benefit of SAS over Solid State?

- A. Higher transfer speeds
- B. Increased power consumption
- C. Increased bandwidth
- D. Cost per MB

Answer: D

Question:2

Which option is a good reason to implement the IBM BladeCenter H chassis over IBM BladeCenter E chassis?

- A. support for 10Gb internal network
- B. better rack space density per blade
- C. lower power consumption per chassis
- D. support for 4Gb Fibre Channel Switch Modules

Answer: A

Question:3

How can you update the firmware on the Advanced Management Module using UpdateXpress?

- A. Boot UpdateXpress from the blade
- B. Use the scripting tools on UpdateXpress
- C. Launch the RemoteUX utility from the Advanced Management Module
- D. Attach a USB CDROM to the Advanced Management Module and boot from e UpdateXpress

Answer: B

Question:4

A customer has a rack with four BladeCenter H chassis that have been operating normally for several months. After installing a new rack of servers in the data center, the system administrator notices the blowers in the BladeCenters have increased their speed. Which of the following caused this problem?

- A. The room temperature has reached 23C (73.4F).
- B. A Blade within the chassis has been shut down.
- C. The ambient temperature in the data center has increased.
- D. One of the additional System X servers in the BladeCenter rack has failed.

Answer: C

Question:5

A customer wants to deploy an IBM BladeCenter S with 7 x HS21 Quad Core Intel Blades. The Customer has two CFFv Ethernet adapters, and one CFFh Qlogic Combination Ethernet and fiber adapter per each blade. How can this be deployed?

- A. This solution can be deployed only if the switch modules are the ones adapted to the I/O needs.
- B. This solution can be deployed with the Nortel switch only.
- C. The HS21 Quad Core are not supported with CFFv Ethernet adapters.
- D. You cannot deploy this solution on BladeCenter S.

Answer: D

Question:6

A business partner wants to identify risks, develop action plans to manage the risks, and recommend resources required for a successful implementation of a BladeCenter solution to their customer. Which of the following addresses this situation?

- A. Conduct a ServerProven Opportunity Request for Evaluation (SPORE)
- B. Use the IBM ServerProven Program
- C. Use IBM System x Configuration and Option Guide (COG)
- D. Conduct a Technical Delivery Assessment (TDA)

Answer: D
