Exam 9A0-045: Adobe InDesign CS 2 ACE Exam

Question: 1

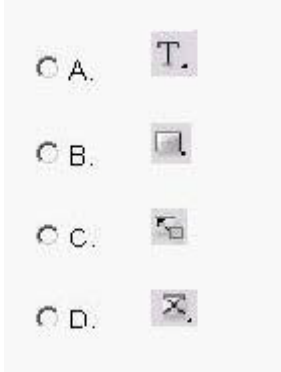

You want all of the rectangles in a document to have a fill of Pantone 114C and a 3-point black stroke. You want this fill and stroke combination to be applied to each new rectangle that you draw. What should you do?

- A. You create a rectangle, give it a fill of Pantone 114C and a 3-point black stroke, then place it in a Library.
- B. You create a rectangle, give it a fill of Pantone 114C and a 3-point black stroke, then use the Eyedropper tool to pick up the correct fill and stroke attributes.
- C. With no objects selected, you choose the Fill icon in the Swatches palette and click on the Pantone 114C swatch. In the Stroke palette, you set the weight to 3 points.
- D. You create the first rectangle, and give it a fill of Pantone 114C and a 3-point black stroke. Every subsequent rectangle will have the same fill and stroke attributes.

Answer: A, C

Question: 2

Which tool should you use to create a frame that indicates that it is intended to be used as a placeholder for a graphic?

A. D

Answer: A

Question: 3

You are asked to create a 16 page booklet. Your client requires that the document have U.S. Letter size portrait orientation facing pages with .5 top and bottom margins, 1 inside margins, and .75 outside margins. The pages should have 3 columns with .2 between the columns. The default text will be Myriad Pro Regular, 11 point size, with 13 point leading. How do you accomplish this?

- A. with no document open, select File > New > Library and enter all of these settings to create this document
- B. with no document open, select File > Document Setup and enter all of these settings to create this document
- C. with no document open, select File > New > Document and enter all of these settings to create this document
- D. with no document open, select File > New > Document and enter all of these settings to create this document except for the text attributes

Answer: D
